safety warnings

• Read all the instructions carefully before using the unit and keep them for future reference.
• Retain the manual. If you pass the unit onto a third party make sure to include this manual.
• Check that the voltage marked on the rating label matches your mains voltage.
• The rating label is at located on the back of the unit.

Damage

• Please inspect the unit for damage after unpacking.
• Do not continue to operate the unit if you are in any doubt about it working normally, or if it is damaged in any way - switch off, disconnect from the mains supply and consult your dealer.

Location of Unit

• The unit must be placed on a flat stable surface and should not be subjected to vibrations.
• Do not place the unit on sloped or unstable surfaces as the unit may fall off or tip over.
• The mains socket must be located near the unit and should be easily accessible.
• This unit is designed for indoor use only.

Temperature

• Avoid extreme degrees of temperature, either hot or cold. Place the unit well away from heat sources such as radiators or gas/electric fires.
• Avoid exposure to direct sunlight.

Naked Flames

• Never place any type of candle or naked flame on the top of or near the unit.

Moisture

• To reduce the risk of fire, electric shock or product damage, do not expose this unit to rain, moisture, dripping or splashing. No objects filled with liquids, such as vases, should be placed on the unit.
• If you spill any liquid into the unit, it can cause serious damage. Switch it off at the mains immediately, disconnect from the mains supply and consult your dealer.

Ventilation

• To prevent the risk of electric shock or fire hazard due to overheating, ensure that curtains and other materials do not obstruct the ventilation vents.
• Do not install or place this unit in a bookcase, built-in cabinet or in another confined space. Ensure the unit is well ventilated.

Safety

• Always disconnect the unit from the mains supply before connecting/disconnecting other devices or moving the unit.
• Unplug the unit from the mains socket during a lightning storm.

Mains Adapter

• Use this appliance only with the supplied AC Adapter. Using non-approved power supplies will void the warranty.
• Mains Supply: The mains operating voltage of this unit is marked on a rating plate on the AC adapter.
• The means of disconnecting this appliance from the mains supply is the mains plug/AC adapter. This should be unobstructed and readily accessible at all times.
• The mains adapter will continue to draw electricity from the mains supply when plugged in the mains socket. In the interests of safety and to avoid unnecessary energy consumption, never leave the mains adapter plugged in the mains socket while unattended for long periods of time. Disconnect the mains adapter from the power supply.
Batteries
- The speaker uses batteries. Batteries (a battery pack or installed batteries) shall not be subject to excessive heat such as sunshine, fire or the like.
- Do not service the internal battery. Have it examined (and replaced if needed) by a competent service centre.

Interference
- Do not place the unit on or near appliances which may cause electromagnetic interference. If you do, it may adversely affect the operating performance of the unit, and cause a distorted picture or sound.

Supervision
- Children should be supervised to ensure that they do not play with the unit.
- Never let anyone especially children push anything into the holes, slots or any other openings in the case - this could result in a fatal electric shock.
- The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the unit’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock.
- The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the manual accompanying the unit.

Service
- To reduce the risk of electric shock, do not remove screws. The unit does not contain any user serviceable parts. Please leave all maintenance work to qualified personnel.
- Do not open any fixed covers as this may expose dangerous voltages.

Maintenance
- Ensure to unplug the unit from the mains socket before cleaning.
- Do not use any type of abrasive pad or abrasive cleaning solutions as these may damage the unit’s surface.
- Do not use liquids to clean the unit.
introduction

Thank you for purchasing your new iWantit Bluetooth speaker.

We recommend that you spend some time reading this instruction manual in order that you fully understand all the operational features it offers. You will also find a troubleshooting section to help you resolve any issues.

Read all the safety instructions carefully before use and keep this instruction manual for future reference.

features

• Your Bluetooth speaker can link wirelessly to compatible Bluetooth sources including mobile phones and notebook computers (source not supplied) to play music or the soundtrack of movies etc.

• The speaker is powered by an internal rechargeable battery for fully portable operation and is supplied with an AC adapter to re-charge the battery when necessary.

• An AUX input enables you to connect analogue audio sources. These may include mobile phones, personal audio players and computers that don’t feature Bluetooth connectivity.

• A USB charging outlet is provided on the back panel to enable you to charge mobile devices when the speaker is connected to the mains via the AC adapter (charging cables are not supplied).
controls and connections

front view

1. **STANDBY/STATUS** Indicator
   - Off when set to Standby.
   - Flashing quickly when searching for a Bluetooth source.
   - Flashing slowly, when playing music from a Bluetooth source.
   - Flashing twice, then pausing when connected to a Bluetooth source, but with no music playing.

2. **STANDBY/PLAY/PAUSE** button
   - Press and hold to switch the unit on or off.
   - When playing a Bluetooth source, press briefly to switch the source between play and pause.

3. **VOLUME –** button.
   - Press to reduce the volume.

4. **VOLUME +** button.
   - Press to increase the volume.

back view

1. **AUX IN** socket
   - Connect Aux sources to this socket.

2. **USB CHARGE** outlet
   - Charge mobile devices from the USB outlet (the AC adaptor must be connected when charging).

3. **CHARGE** indicator
   - Lights red when charging, green when fully charged.

4. **DC IN** socket
   - Connect the AC adaptor to the DC In socket to charge the battery.

5. **STAND**
   - The stand will fold away when not in use and protects the connections.
getting started

unpackng

Remove all packaging from the unit. Retain the packaging. If you dispose of it please do so according to local regulations.

The following items are included:

- Bluetooth speaker
- AC adapter

If items are missing or damaged, please contact Partmaster (UK only). Tel: 0844 800 3456 for assistance.

opening and closing the stand

Before use

- Open the stand on the back panel.
- Place the speaker on a dry stable surface away from heat and damp and where it is unlikely to fall or be knocked over.

When you have finished using the speaker close the stand.

1. Press in the catch.
2. Fold up the main part of the stand.

The stand also protects the back panel connections when not in use.
power supply

The speaker can be powered by the internal rechargeable battery or via the AC adapter (supplied).

connecting the ac adapter

- Connect the AC adapter cable to the **DC IN** socket on the back panel.
- Plug the AC adapter into a mains outlet.

*When the AC adapter is connected, the internal battery will begin to charge and the Charge Indicator will light red.*

*When the battery is fully charged, the Charge Indicator will change to green. You can disconnect the AC adapter once the battery is fully charged.*

charging the battery

If the battery is completely exhausted, the speaker will play a tune. Charge the speaker for at least 4 hours.

**NOTE:** The battery will charge whether the speaker is switched on or off.

battery care

To ensure maximum life from the battery in your speaker, follow these guidelines:

- Discharge the battery completely twice a year.
- If the speaker hasn’t been used for a long period of time, discharge the battery completely, then fully charge it for 4 hours before use.
- Never recharge the battery in a temperature below 0°C.
- Avoid recharging the battery in direct sunlight or near a radiating heat source.
switching on/off

to turn the speaker on
• Press and hold the \(\text{\textregistered} \text{H/M} \) button.

*The speaker will play a tune and the Power/Status indicator light will flash quickly while searching for the last connected Bluetooth device.*

*If this device is found, it will re-connect. The light will flash slowly.*

*If it is not found, the speaker will be visible for connection to other Bluetooth sources.*

to turn the speaker off
• Press and hold the \(\text{\textregistered} \text{H/M} \) button.

*The speaker will play a tune and the Power/Status indicator light will switch off.*
Bluetooth® pairing and connection

Before playing your speaker it must be paired and connected to the Bluetooth source you intend using. This may be a mobile phone or Bluetooth equipped notebook, computer etc.

pairing with a Bluetooth device

• Switch on the speaker.

*The Bluetooth indicator light will flash.*

• Activate Bluetooth on the source.

*If the source is a phone, Bluetooth will normally be activated in the connectivity section of the settings menu.*

*If the source is a computer, Bluetooth settings should be found in the Control Panel.*

• In the Bluetooth menu of the source, there should be an option to search for Bluetooth devices. Select this option.

The source will now scan for other Bluetooth devices and should find the speaker, identified as ‘ISBT13’.

• Choose to pair with this.

*If the device features Bluetooth technology earlier than V2.0, you will be asked for a password.*

• If so, enter 0000.

*Your Bluetooth source will now be connected to the speaker. Once connection has been established, the speaker will beep and the Bluetooth indicator will stop flashing.*

*After pairing for the first time, the speaker will appear in the connection menu of your Bluetooth device.*

re-connecting

Your source and the speaker should re-connect automatically when next used if no other source is connected to the speaker.

disconnecting

You can choose to disconnect the speaker from your source.

• Press both the ‘+’ and ‘−’ buttons together.

*The speaker will disconnect from the source and will become available for connection to another Bluetooth source.*
Bluetooth® operation

mobile phones

Once the speaker is connected to your phone, the sound should switch from your phone to the speaker. You can now play music from your phone via the speaker.

NOTE: The speaker cannot be used to make hands-free phone calls. Sound will transfer back to the phone for the duration of a phone call.

notebook computers

Once the speaker is connected to your computer, you may need to open the sound menu and select the speaker as your preferred sound device. Once this is done, you can play music or movie soundtracks from your notebook computer.

volume control

• Press the + button on the control panel to turn the volume up.
• Press the – button on the control panel to turn the volume down.

playback control

You can use the button on the control panel to control the source.
• Press the button to switch the source between play and pause.

When the source is paused, the Standby/Status indicator will flash twice, then pause.

charging/powering mobile devices:

You can charge or power USB connected mobile devices when the AC adapter is connected.
• Connect the AC adapter to the speaker.
• Connect the mobile device to the USB CHARGE port on the back panel.

The device will charge. When the device is fully charged, the charge indicator will change to green.

NOTE: It is not possible to play USB MP3 flash players or flash drives via the USB port.
aux in operation
The Aux In socket may be used to connect sources that do not have Bluetooth connectivity. Aux in sources may include -
• Mobile phones
• Personal audio players
• Personal or notebook computers

connecting to the aux in socket
• Connect a stereo 3.5mm socket cable (not supplied) between the headphone or LINE/AUX output of the personal audio player and the AUX IN socket on the back panel.
NOTE: The Aux source will be automatically selected when a cable is connected.

playing the aux source
• Set your personal audio player/computer to PLAY.
• Set the listening volume to the level you want with the volume control on the speaker.
• If there is no sound or if the volume level is not loud enough, you may need to increase the volume setting on the source.
• When you have finished listening to the Aux in source, disconnect the cable. Bluetooth audio will be re-selected. If you now want to play a Bluetooth source, set it to play.
maintenance

cleaning the unit

Ensure to unplug the unit from the mains socket before cleaning.

- To clean the unit, wipe the case with a slightly moist, lint-free cloth.
- Do not use any cleaning fluids containing alcohol, ammonia or abrasives.
- Do not spray an aerosol at or near the speaker.

troubleshooting

If a problem does occur, it may often be due to something very minor. The following table contains various tips.

<table>
<thead>
<tr>
<th>Symptom</th>
<th>Suggestion</th>
</tr>
</thead>
<tbody>
<tr>
<td>No power.</td>
<td>• The battery may be flat. Connect the AC adapter and charge the battery.</td>
</tr>
<tr>
<td>Unable to pair with a source.</td>
<td>• Check that the speaker appears correctly as ‘ISBT13’ in the pairing list of the source. If it is listed, re-try pairing. If not, check that Bluetooth is enabled at the source.</td>
</tr>
<tr>
<td></td>
<td>• The Bluetooth source may not be a compatible version. Check that the source is compatible against the version in the specifications section.</td>
</tr>
<tr>
<td>No sound or insufficient volume when playing a Bluetooth or Aux source.</td>
<td>• The volume may be turned down on the source. Try a higher setting.</td>
</tr>
</tbody>
</table>

Notes for battery disposal

The batteries used with this product contain chemicals that are harmful to the environment. To preserve our environment, dispose of used batteries according to your local laws or regulations. Do not dispose of batteries with normal household waste.

For more information, please contact the local authority or your retailer where you purchased the product.

This symbol on the product or in the instructions means that your electrical and electronic equipment should be disposed at the end of its life separately from your household waste. There are separate collection systems for recycling in the EU.

For more information, please contact the local authority or your retailer where you purchased the product.
