Safety Warnings

For your continued safety and to reduce the risk of injury or electric shock, please follow all the safety precautions listed below.

- Read all the instructions carefully before using this appliance and keep them for future reference.
- Retain the manual. If you pass the appliance on to a third party, make sure to include this manual.
- Unplug the appliance from the mains socket when not in use, or before cleaning any part of the appliance.
- Allow the appliance to completely cool down before cleaning.
- Never immerse the appliance in water and always keep the electrical contacts dry.
- Never place the appliance on or near a source of heat such as a cooker ring or gas flame.
- Always place the appliance on a dry, flat and stable surface.
- To prevent from heating dry, ensure the milk level is no less than the frothing level indicator on the appliance.
- Do not use the appliance to heat anything other than milk.
- Do not interfere with the normal working of the switch.
- Always keep the appliance out of the reach of small children.
• This appliance can be used by persons aged from 8 years and above and persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge if they have been given supervision or instructions concerning the use of the appliance in a safe way and understand the hazards involved. Children should not play with the appliance. Cleaning and user maintenance should not be made by children unless they are older than 8 years old and are supervised.

• Keep the appliance and its cord out of reach of children less than 8 years old.

• This appliance is intended for indoor household use and similar applications such as:
  – farm houses and by clients in hotels, motels and other residential type environment;
  – bed and breakfast type environment;
  – catering and similar non-retail applications.

• Children should be supervised to ensure that they do not play with the appliance.

• If the mains cable is damaged it must be replaced by the manufacturer, its service agent, or similarly qualified persons in order to avoid a hazard.

• Do not let the mains cable overhang the edge of the work surface or allow it to touch hot surfaces or sources of heat or flame.

• Do not open the lid while the milk is heating.
Thank you for purchasing your new Logik Milk Frother.
We recommend that you spend some time reading this instruction manual in order to fully understand all the operational features it offers.
Read all the safety instructions carefully before use and keep this instruction manual for future reference.

- The Main Unit
- Milk Frother Stand
- Lid
- Frothing Paddle
- Heating Paddle
- Instruction Manual

If items are missing or damaged please contact Partmaster (UK only).
Tel: 0844 800 3456 for assistance.
Product Overview

1. Lid
2. Milk Jug
3. Power Button with Indicator
4. Milk Frother Stand
5. Handle
6. Mains Cable

First Time Use

Clean the lid, frothing paddle and mixing paddle by hand thoroughly with warm soapy water. Rinse and allow to dry.

Wipe the exterior of the milk frother stand with a damp cloth, avoiding the Power Connector Hole.

Do not immerse any parts the appliance in water.
Operation

The milk frother comes with two paddles, one for frothing and one for heating milk.

**Frothing Paddle**
Use for heating and/or frothing milk.

**Heating Paddle**
Use for heating milk.

1. Place the milk frother stand on a flat stable surface, away from walls and over hanging cupboards.

2. Open the lid and insert the appropriate paddle onto the shaft in the milk jug. Push down gently but firmly to ensure the paddle locks into place.

3. Pour fresh milk into the jug, making sure not to exceed the maximum level marked on the inside of the jug. (The lower “MAX” marking is for frothing milk, the top “MAX” marking is the maximum level for heating milk.)

   - Only a maximum of 100ml of milk can be frothed to prevent spillover after frothing.
   - Only a maximum of 200ml of milk can be heated.

4. Place the lid firmly on the jug and put the milk frother on its stand. Connect the stand’s mains cable to the mains socket. The indicator will light up red.

   The milk frother must only be used with the stand provided.
5. **(a) Frothing and Heating (MAX 🌟)**

Press the ◌ button ONCE, the indicator will light up blue. The paddle will start to rotate. When the milk is frothed and heated, the milk frother will stop automatically and the indicator will light up red.

⚠️ Ensure the milk inside the jug is below the marked “MAX 🌟” to prevent spillover after frothing.

**(b) Heating Only (MAX 🔁)**

Press the ◌ button TWICE, the indicator will light up blue. The paddle will start to rotate. When the milk is heated, the milk frother will stop automatically and the indicator will light up red.

⚠️ Ensure the milk inside the jug is below the marked “MAX 🔁”.

**(c) Frothing Only (MAX 🔌)**

Press the ◌ button THREE TIMES, the indicator will up flash blue. The paddle will start to rotate. When the milk is frothed, the milk frother will stop automatically and the indicator will light up red.

⚠️ Ensure the milk inside the jug is below the marked “MAX 🔌” to prevent spillover after frothing.

⚠️ You can press the ◌ button at any time to stop.

6. When the milk frother has stopped, carefully remove the lid and pour the warmed or frothed milk into your beverage.

7. After frothing or heating, wait 3 minutes before reusing the milk frother. To shorten this time, rinse with water and wipe dry after each use. Do not immerse the appliance in water.

⚠️ The milk frother will enter an automatic-safety mode after 5 consecutive uses. The power indicator will flash blue and the ◌ button will not be usable for 5 minutes.

8. Always turn off the milk frother and disconnect the power supply when not in use.
Cleaning the Milk Frother

Washing the Components
Wash the lid, frothing paddle and mixing paddle by hand thoroughly with warm soapy water immediately after each use. Rinse and allow to dry.

Washing the Interior
After each use, immediately wipe the interior clean with a damp, soapy, non-abrasive sponge or cloth. Rinse thoroughly, then dry.

Cleaning the Exterior
The milk frother exterior should be cleaned with a soft damp cloth. Do not use abrasive cleaners or scouring pads which may damage the finish of the milk frother.

• Do not insert any foreign objects or allow any liquid to spill into the Power Connector Hole.
• Never immerse the milk frother or the stand in water and always keep the electrical contacts dry. Always disconnect from the mains before cleaning the stand.
Hints and Tips

• Always froth or heat the milk before making coffee or hot chocolate. When the milk is ready, add to the beverage and serve immediately.
• Milk heats to approximately 68°C (±10°C). This is the ideal temperature to ensure the flavour of your coffee is not impaired and so you don’t have to wait too long until you can start sipping on your drink.
• Keep the paddles in a safe place. They are small and can easily be lost.
• After frothing or heating, wait 3 minutes before reusing the milk frother. To shorten this time, rinse with water and wipe dry after each use.
