Thank you for purchasing your new Sandstrøm Wireless Mouse With Laser Tracking.

Before commencing the installation and set up, please check that you have all the items and familiarise yourself with this Quick Start Guide.

Quick Start Guide
(P.N.: W00M550L+110000)

2 x Batteries (AAA size)
(P.N.: W3151200+143100)

Mouse Nano Receiver
(P.N.: SLR2000M+140300)

UNPACKING
Remove all packaging from the unit. Retain the packaging. If you dispose of it please do so in accordance with local regulations. The following items are included:

- Mouse
- Nano Receiver
- Battery Cover
- ON/OFF Switch
- CPI (Count per Inch) Button
- Scroll Wheel
- 2 x AAA batteries

If items are missing, or damaged please contact Partmaster (UK only). Tel: 0844 800 3456 for assistance.

SYSTEM REQUIREMENTS
Operating System: Microsoft® Windows®2000/XP/ Vista™ & Windows® 7
Hardware: 1 available USB port

INSTALLING THE BATTERIES
1. Press and lift the battery cover.
2. Insert 2 x AAA batteries.
3. Close the battery cover.

Please insert the batteries with the correct polarity.

CONNECT THE USB NANO RECEIVER
Remove the Nano Receiver from the mouse and then plug the Nano Receiver directly into your computer's USB port.

Operating Systems:
- Microsoft® Windows®2000/XP/Vista™ & Windows® 7

ACTIVATE THE WIRELESS MOUSE
For energy saving, switch the ON/OFF button to temporarily turn off the mouse and to disconnect between the mouse and the Nano Receiver.

TROUBLESHOOTING SAFETY WARNINGS

Mouse Not Working:
1. Check that the power switch is in the on position.
2. Make sure the Nano Receiver is plugged into a USB port and the computer is on or try the Nano Receiver in a different USB port.
3. Check battery installation. Replace battery if needed.
4. If mouse performance is slow or intermittent around a wireless network, unplug the Nano Receiver from the USB port and then reinsert it. Switch the ON/OFF button again on the bottom of the mouse to reactivate it. Repeat the connection procedure. You can also try moving the mouse closer to the Nano Receiver.
5. If the mouse is moving erratically change the working surface within the mouse is operating on.

CLASS 1 Laser Product:
• This product complies with IEC 60825-1, Class 1 laser product.
• Your product complies with CE rules.
• This product has no serviceable parts. Use of controls or adjustments of procedures other than the Quick Start Guide may result in danger.
• While the mouse is functioning, the laser beam is not visible to the naked eye. Avoid looking directly into the emitter hole while the mouse is active.

To Reduce the Risk of Injury:
• Keep batteries out of the reach of children.
• Do not heat, open, puncture, mutilate, or dispose of batteries in fire.
• Do not mix new and old batteries or batteries of different types.
• Do not allow metal objects to touch the battery terminals on the device; they can become hot and cause burns.
• Never point the optical sensor toward the face, particularly the eyes, to avoid possible injury.
• While the mouse is functioning, optical light is visible to the naked eye.
• Avoid looking directly into the emitter hole while the mouse is active.

Wireless Devices:
Before boarding any aircraft or packing a wireless device in luggage that will be checked, remove the batteries from the wireless device.
Wireless devices can transmit radio frequency (RF) energy, whenever batteries are installed and the wireless device is turned on (If it has an On/Off switch).

Battery-Powered Devices:
Improper use of batteries may result in battery fluid leakage, overheating, or explosion.
Maintain and store the battery out of reach and use only the battery supplied with your device.

Features and specifications are subject to change without prior notice. Windows is a registered trademark of Microsoft Corporation in the United States and other countries.
